

REMARKS

The drawing objection noted by the Examiner has been avoided by adding a paragraph in the specification explaining reference numeral 33. No new matter is added because the original specification had a listing of reference numerals and descriptions for those reference numerals identifying reference numeral 33 as a blade cylinder.

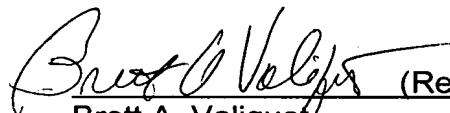

The specification problems noted by the Examiner have been avoided by the amendments herein.

The Examiner indicated claim 17 would be allowed if placed in independent form. This has been done.

The Examiner indicated claims 18-36 as allowed.

All claims presently in the case are now allowable, and it is respectfully requested that the Examiner now allow this case.

Respectfully submitted,

 (Reg.No.27,841)
